

REMARKS

The Examiner objected claims 7-11 as previously stated were dependent on the rejected base claim 1. The applicant has incorporated claim 1 limitations into claim 7. As amended claims 8-11 are dependent on amended claim 7, they all comprise the limitations of rejected claim 1. Withdrawal of the objections is respectfully requested.

Objected claim 12 was dependent on rejected claims 1 & 6, and the entire limitations are now incorporated into the amended claim 12. Withdrawal of the objection is respectfully requested.

Objected claims 14-16 were dependent on rejected base claim 13, which is fully incorporated into amended claim 14. As amended claims 15-16 are dependent on amended claim 14, they all incorporate the claim limitations of rejected base claim 13. Withdrawal of the objections is respectfully requested.

Objected claims 18-20 were dependent on rejected base claim 17, which is fully incorporated into amended claim 18. As amended claims 19-20 are dependent on amended claim 18, they all incorporate the claim limitations of rejected base claim 18. Withdrawal of the objections is respectfully requested. The applicant believes that all amended claims fall under the conditions of allowance.

CONCLUSION

The applicant believes that the above submission is fully responsive to the office action.

If for any reason the Examiner believes that a telephone conference would in any way expedite this matter, the Examiner is invited to telephone the Inventor Mr. Madurawe at (408) 737-8868 or on his cell phone at (408) 431-5367.

Respectfully submitted,

Raminda Madurawe
